Many people have heard of the extraordinary phenomenon of kundalini awakening in which a persons body is swept by muscle spasms, indescribable sensations & sharp pains running throughout the body. He feels his body tearing within. Then suddenly he laughs & is overcome with bliss. When allowed to progress to completion, this process

Now everything continues, to make more and more sense.

Robert M. Foster

I acutally bought a copy of this book 10 years ago, read it, and thought it was a load of baloney.

Reb S.

The author does a good job of presenting the data in a rational, semi-scientific manner.

SO Grateful For This Book!

By [Reb S.](#) on June 9, 2008

Format: Paperback **Amazon Verified Purchase**

I acutally bought a copy of this book 10 years ago, read it, and thought it was a load of baloney. (And was secretly freaked out by the thought that it might NOT be baloney). Then, since I didn't want to consider the possibility, I got rid of the book. Now, 10 years later, a year after my OWN chakras started 'waking up'(and freaking the heck out of me!) I was directed to this book again and am now drinking it up, absolutely relieved that it exists, because the process it's describing is EXACTLY what's happening to me. (So much for my baloney theory!)It's too bad the book is out of print now, but kudos to all of the other sellers who are still making it available. Talk about the right book at the right time. If you suspect your energy is raising itself to a higher level (or you're not sure what's going on) check out this book. It may help a lot! It defintely has helped me. (And, in truth, the fact that I read it years before I went through this experience actually helped me to recognize it when it started happening to me).

Lucid, readable, useful.

By [Craig Chalquist, PhD, author of TERRAPSYCHOLOGY and DEEP CALIFORNIA](#) on October 11, 1999

Format: Paperback **Amazon Verified Purchase**

I recommend this as an intro into the understanding of what Grof and Grof have dubbed "spiritual emergence," an increasingly common pattern of psychobiological activity often misdiagnosed as psychotic. -- Craig Chalquist, M.S., creator of the Thineownself self-exploration site.

Worked

It works pretty damn quick. I have always been curious and this booked helped me find a path to sexual enlightenment.

Published 2 months ago by Beau Phillips

Not Very Instructive

I've been having these kind of experiences for more than 20 years now, but I've never heard of the term 'Kundalini'. I bought this book on the recommendation of a friend. [Read more](#)

Excellent

The store kindly shipped the book on express without me asking. It arrived quickly and in great shape. I am impressed they had this book which is out of print.

Published on September 18, 2010 by Amber

Excellent perspective by a western psychiatrist.

This book is a breakthrough for western people experiencing difficulties with kundalini. I need to find out about the kundalini clinic mentioned on the cover of the book. [Read more](#)

If you are working in the medical field - especially if have to diagnose - use this book to get an idea about a natural development which up to now occurred very infrequently but which is going to be happening more often during the next years.

Been there and done that

By [Robert M. Foster](#) on July 15, 2009

Format: Paperback

I read an earlier edition of this book, before I went on a retreat to see a spiritual teacher, with the intention of becoming enlightened, by the kundalini process. I was in a hurry. I now teach kinder and gentler and slower ways. Anyhow, somewhat to my surprise, I went through the process. Now everything continues, to make more and more sense. It was about starting to become enlightened, so I am continually learning. Unfortunately for me, my doctors unlike the author, at the time, were not enlightened, about things like this. I did learn how ignorant they were, though. [...]

Kundalini experienced

By [Kult](#) on May 6, 2012

Format: Paperback [Amazon Verified Purchase](#)

This is a good book for anyone who has experienced or thinks they have experienced a Kundalini awakening, spontaneously or otherwise.

The author does a good job of presenting the data in a rational, semi-scientific manner. Anyone experiencing some of the bizzare and esoteric side-effects of an awakening will find this book grounding and a good source of reference points along their journey.

Not the definitive story on Kundalini, but a useful tool nevertheless.
