Jane Ellen Harrison (1850–1928) was a pioneer in the academic study of myth in its historical and archaeological context, and was also one of the first women to make a full-time career as an academic. In her introduction to this book (1903), making the point that 'Greek religion' was usually studied using the surviving literary retellings of myths and legends, she states: 'The first preliminary to any scientific understanding of Greek religion is a minute examination of its ritual'. Using the then emerging disciplines of anthropology and ethnology, she demonstrates that the of ancient Greek religion with the goal to find out the roots and fundamentals of rituals and them being present in the classical religion and literature. The preface of this famous book states that J. G. Frazer has made a great contribution to her research and influenced as well the works of many other researches of religion. Our contemporary academics who examines ancient myths or rituals can say the same words about Jane Harrison. Her thoughts set in the Prolegomena have not lost their importance and innovation.
