Author Tags. If this is your first visit, be sure to check out the FAQ by clicking the link above. You may have to register before you can post: click the register link above to proceed. I'm currently going through the Fanfic section adding author tags to the various stories/writings/drabbles. Hopefully this will help out those looking for all stories by a particular author, in addition to Beast's Lair Fiction Tracker. Most if not all stories have been tagged and I will continue to update this thread as new stories/authors come about. Use custom meta tags to store data that you need in javascript, instead of hard-coding that data into your javascript. I store my Google Analytics code in meta tags. Here's some examples: . Company/Service Meta Tags. ClaimID. Furthermore, authors and publishers can use meta tags to deposit copyright data. However, not all of this information is relevant for interactions with browsers and search bots. The situation is different with meta tags, which control the behavior of user agents by prohibiting the corresponding HTML page from being indexed or by preventing web crawlers from following outgoing links. The following section outlines the most important meta elements and their uses for website operators. Title.
