"Don Hustins has written an important book about the history of Atlantic salmon fishing and conservation in Newfoundland and Labrador. Rivers of Dreams provides an interesting and comprehensive account of Atlantic salmon fishing in Newfoundland and Labrador from the first gentlemen sportsmen who visited these wonderful wilderness rivers, to the glory days when Lee Wulff operated his camps on the River of Ponds and Portland Creek, to present day. Don also considers the serious conservation challenges facing the King of Fish and offers inspiration and hope for a new conservation ethic."

Bill Taylor
President Atlantic Salmon Federation

An amazing piece of work, exhaustively researched, it tells the tale of the great resiliency of the Atlantic salmon in this province. The species survived despite the greatest efforts of man to destroy it. This is a thought-provoking read and a book you will be glad to give to your friends. It has a special place in my library and will be read again and again!

"The River of Dreams" is a song by American musician Billy Joel. It is the title track and first single from his 1993 album *River of Dreams*. The song was a hit, peaking at number 3 on the United States and UK charts, making it Joel's highest charting of the 1990s (*River of Dreams* was the only album he released during the 1990s). It also hit the top spot in Australia, New Zealand, and on the Canadian and US Adult Contemporary charts. The song was produced by Joe Nicolo and Danny Kortchmar. *River of Dreams*. Disclaimer: Believe it or not, I don't own Harry Potter or any of the other characters from J.K. Rowling's books. And I'm a college student, so suing me wouldn't get you much besides a broken radio and a couple used textbooks the bookstore won't take back anyway.
