It is hard to imagine any library that wants to do a better job of understanding, serving, and embracing teens not having this book, even if they have every other edition. It is invaluable beyond the few words that this review has space to include. The CD-ROM tool kit alone makes this resource worth its purchase ...Â "Contains just about everything anyone would want to know in the early twenty-first century about being an excellent young adult librarian . The book is extremely well laid out one of the most outstanding features of the book is an extensive glossary of both terms and people's names it is recommended for all young adult librarians or all librarians who want to be young adult librarians or teachers who want to function as young adult librarians." USING XML A How-To-Do-It Manual and CD-ROM for Librarians KWONG BOR NG HOW-TO-DO-IT MANUALS NUMBER 154 NEAL-SCHUMAN PUBLISHERS, INC. New York London Published by Neal-Schuman Publishers, Inc. 100 William.Â It can handle the special characters and non-roman scripts often found in bibliographic records. For digital libraries and archival systems, it also offers the greatest promise of data longevity. Technical services librarians, metadata librarians, system librarians, and Webmasters will particularly benefit from XML knowledge. After reading these pages and completing the exercises, you will have a fundamental education in XML-based resource description and bibliographic data management.
