Wormell's vivid linoleum-block prints of exotic and unusual animals, from armadillo to zorilla, form a delightful and surprising alphabet. Age Range: 18 months to 5 ye This durable board book edition of Christopher Wormell's critically acclaimed The New Alphabet of Animals is sure to be a hit with children who are too young to handle the more expensive cloth-bound edition. the habits of different animals: we never find any mistakes in whatthey say about them. Solomon says in his Proverbs, "As a roaring lionand a ranging bear, so is a wicked ruler over the poor people." You have often read or heard the sad story in the 2d of Kings, how forty-two children were killed at one time by two bears out of the wood.Â Although the bee is so small an animal, it is very well known; and manylearned men have spent a great deal of time in observing it, and havewritten many very curious things about it. They tell us that there isin every hive a queen, larger than the rest, whom they all follow andobey; and that if she dies or is carried away, they all leave their workand unless the queen is restored or another one provided, they refuse toeat, and soon die.
