Forced Exit reveals the horrors of the Netherlands, where 8.5% of all deaths are attributed to assisted suicide and where Dutch doctors have rapidly moved from euthanizing the terminally ill, to the chronically ill, to the depressed with no organic disease, to killing infants born with birth defects. Smith reveals positive alternatives: easy access to hospice care for the dying, effective pain control, and independent living for the disabled. And he profiles people who have considered suicide the only choice, but after receiving proper care and assistance have gone on to lead full and satisfying lives. There is a slippery slope through which assisted suicide is becoming acceptable for those with emotional rather than terminal physical pain. This incurs uncomfortable recollections of the treatment of psychiatrically ill people in medieval times. Modern medicine seemed to go a great distance to reverse the perceptions and fate of those who were mentally ill, only to have a contemporary pathway carved out for their termination, via "choice." Belgium's laws have also raised concern. In recent reports, at least 32% of the euthanasias in Belgium appear to have been done in the absence of a request.

**Forced Exit: The Slippery Slope from Assisted Suicide to Legalized Murder** Wesley Smith Spence Publishers, 2003 364 pages, \$17.95 paperback. **Winning the War Against Euthanasia.** The war against euthanasia can be won writes Wesley Smith in his newly revised book "Forced Exit: The Slippery Slope from Assisted Suicide to Legalized Murder." The intentional killing of disabled people is not something that most Americans support. Recent events such as the reinsertion of Terri Schiavo's feeding tube and the ban on partial birth abortion support his assertion. Yet death activists are tena
