Prose is a form of language that has no formal metrical structure. It applies a natural flow of speech, and ordinary grammatical structure, rather than rhythmic structure, such as in the case of traditional poetry. Normal everyday speech is spoken in prose, and most people think and write in prose form. Prose comprises of full grammatical sentences, which consist of paragraphs, and forgoes aesthetic appeal in favor of clear, straightforward language. It can be said to be the most reflective of conversational speech. Prose definition, the ordinary form of spoken or written language, without metrical structure, as distinguished from poetry or verse.
